RCR AWARDED \$80M CONTRACT FOR GANNAWARRA SOLAR FARM

Diversified engineering and infrastructure company RCR Tomlinson Ltd (ASX: RCR), is pleased to announce that it has been awarded a contract worth over \$80 million with Edify Energy Pty Ltd and Wirsol Energy Ltd for the Engineering, Procurement and Construction (“EPC”) and Operation and Maintenance (“O&M”) for the first phase of the Gannawarra Solar Farm.

Stage one of the Gannawarra Solar Farm development will be for 60MWp DC of capacity. RCR’s scope of work includes engineering, procurement, construction and commissioning of the solar farm, including associated substations and grid connection works.

The project will start immediately, with construction scheduled to commence in Q2 2017. Completion is expected in Q1 2018. Once commissioned, RCR will undertake O&M services of the Gannawarra Solar Farm for an initial period of 2 years, with a 3 year extension option.

The proposed Gannawarra Solar Farm is located west of the rural Victorian town of Kerang.

RCR Managing Director & CEO, Dr Paul Dalglish said “We are very pleased to have been selected by Edify Energy and Wirsol to deliver this large-scale solar energy project.

RCR has firmly positioned itself as one of Australia’s leading EPC providers in the delivery of large-scale solar infrastructure.

We continue to see significant future opportunities for new large-scale solar projects coming to the market. We are confident that our experience and application of Engineering Intelligence to renewable projects provides RCR with a significant competitive advantage.

The award of this contract will add to RCR’s growing list of renewable energy projects under construction”, said Dr Dalglish.

Exclusive EPC Contractor for the 110MW Darling Downs Solar Farm

On 21 March 2016, RCR announced that it had been awarded an Early Contractor Involvement (“ECI”) contract for the proposed Darling Downs Solar Farm.

RCR advises that it has now signed an agreement which provides RCR with exclusive rights to provide Engineering, Procurement and Construction (“EPC”) services in respect of the Darling Downs Solar Farm (“Exclusivity Deed”).

The Exclusivity Deed is a demonstrated commitment by the parties to continue working together to progress the project.

The proposed Darling Downs Solar Farm project will be one of Australia's largest solar plants, delivering 110MW of generation capacity with up to a 200 Ha solar footprint.

About RCR

RCR Tomlinson Ltd (ASX code: RCR) is a diversified engineering and infrastructure company providing turnkey integrated solutions to clients in the **infrastructure**, **energy** and **resources** sectors. RCR has a 119 years of history in the engineering sector and owns some of Australia's oldest engineering businesses including RCR Tomlinson™, O'Donnell Griffin™, Haden™, and Resolve FM™.

RCR's core capabilities encompass, engineering, procurement and construction ("EPC") of power and steam generation plants (using a wide range of fuels, solar and wind), water and waste treatment systems; rail and road tunnel infrastructure, rail signalling and overhead wiring systems, mineral processing and material handling plants, construction of mechanical, piping and electrical disciplines (SMP/E&I), integrated oil & gas services (both onshore and offshore), supply of RCR proprietary materials handling and process equipment, asset repair, fabrication and maintenance services, HVAC services, and facilities management services.

RCR has operations across Australia, Asia and New Zealand. Additional information is available at www.rcrtom.com.au
