

RCR has a goal to undertake all business activities in an environmentally sustainable and responsible manner. RCR respects our relationship with the natural environment and aims to manage the potential impacts of our operations in a manner that minimises harm and maintains the ecosystem and its biodiversity.

Our commitment:

- Drive continual improvement and maintain an effective and efficient Management System, that is compliant with the requirements of the current version of AS/NZS ISO 14001;
- Manage our operations in compliance with or exceeding the applicable Commonwealth and State environmental legislative requirements and provide resources necessary to meet these obligations;
- Identify and effectively manage our environmental aspects and impacts;
- Develop and actively promote initiatives to improve environmental performance through continuous research and integration of best practice processes;
- Review environmental performance, monitor against key performance indicators, objectives and targets on a regular basis;
- Establish direct and effective ways of communication with our employees, customers, suppliers, contractors, and the community regarding environmental obligations, performance and compliance in order to achieve shared and lasting outcomes;
- Demonstrate good governance by incorporating sustainability principles into all RCR activities and decision making and actively promote use of eco-friendly materials and equipment;
- Report and record environmental incidents and potential environmental hazards to facilitate corrective actions, eliminate or minimise impact, improve performance and prevent incident recurrence.

All RCR personnel, contractors and visitors are responsible for the implementation of and compliance to this Policy.

This policy applies to all activities undertaken or controlled by RCR.

Bruce James

Chief Executive Officer

E. I. ENGINEERING INTELLIGENCE.
That's what we do.
