## RCR AWARDED APPROXIMATELY \$85M EPC CONTRACT FOR MANILDRA SOLAR FARM

### Manildra 48.5MW Solar Farm

Diversified engineering and infrastructure company RCR Tomlinson Ltd (ASX: RCR), is pleased to announce that it has been awarded a contract valued at approximately \$85 million with Manildra Prop Pty Ltd to design and construct a major utility solar farm located at Manildra in New South Wales ("Manildra Solar Farm").

The Manildra Solar Farm is located one kilometre from Manildra in regional New South Wales and will be constructed with a total capacity of 48.5MW. RCR's scope of work includes engineering, procurement, construction ("EPC") and commissioning, of the solar farm, including associated substations and grid connection works.

The project will commence immediately, with construction scheduled to commence in June 2017. Completion is expected to in Q2 of 2018.

The award of this contract adds to RCR's Order Book. RCR is also currently preferred on six additional renewable energy projects, which RCR expects to convert into contracts in the near-term.

RCR Managing Director & CEO, Dr Paul Dalgleish said "We are very pleased to have been selected as the key partner to deliver this significant large-scale solar energy project at Manildra.

*There continues to be strong growth in the renewable markets, and in particular solar, where RCR excels by bringing a combination of smart engineering solutions and an understanding of traditional energy projects that often includes high voltage infrastructure and network compliance. The use of our engineering intelligence ensures clients get strong performance guarantees and smart solutions at lower cost", said Dr Dalgleish.*

### Sun Metals Solar Farm Increased to 124.4MW Capacity

RCR is also pleased to advise that Sun Metals have approved contract variations for an additional 26MW capacity in relation to the Sun Metals Solar Farm in Townsville, Queensland.

RCR's EPC contract (as announced on 28 December 2016) is now valued at over \$200 million will see the Sun Metals Solar Farm constructed with a total capacity of 124.4MW.

**About RCR**

RCR Tomlinson Ltd (ASX code: RCR) is a diversified engineering and infrastructure company providing turnkey integrated solutions to clients in the **infrastructure**, **energy** and **resources** sectors. RCR has a 119 years of history in the engineering sector and owns some of Australia's oldest engineering businesses including RCR Tomlinson™, O'Donnell Griffin™, Haden™, and Resolve FM™.

RCR's core capabilities encompass, engineering, procurement and construction ("EPC") of power and steam generation plants (using a wide range of fuels, solar and wind), water and waste treatment systems; rail and road tunnel infrastructure, rail signalling and overhead wiring systems, mineral processing and material handling plants, construction of mechanical, piping and electrical disciplines (SMP/E&I), integrated oil & gas services (both onshore and offshore), supply of RCR proprietary materials handling and process equipment, asset repair, fabrication and maintenance services, HVAC services, and facilities management services.

RCR has operations across Australia, Asia and New Zealand. Additional information is available at [www.rcrtom.com.au](http://www.rcrtom.com.au)
